

Untapped Technologies LLC

Capability Statement

Company Overview

Untapped Technologies LLC provides enterprise-grade application architecture, custom software engineering, AI deployment, and technical team leadership. Led by a Service-Disabled Veteran, we deliver end-to-end IT modernization, cloud architecture, and full-stack software solutions tailored for commercial, state, and federal environments.

Core Competencies

- **Application & Enterprise Architecture:** End-to-end software design, microservices, cloud-native modernization, and enterprise architecture blueprints.
- **AI Implementation & Building:** Custom LLM integration, Retrieval-Augmented Generation (RAG) systems, agentic workflow automation, and private AI deployments.
- **DevOps & Cloud Infrastructure:** CI/CD pipeline automation, Infrastructure as Code (Terraform, Ansible), cloud migration (AWS, Azure, GCP), and container orchestration (Kubernetes, Docker).
- **Backend & Database Engineering:** High-throughput API design, relational/non-relational database architecture (PostgreSQL, MongoDB, Redis), and system integration.
- **Frontend Application Development:** Enterprise web and mobile interfaces using modern, high-performance frameworks (React, Next.js, Vue, TypeScript).
- **Cybersecurity & Zero Trust Architecture:** Secure Software Development Lifecycle (SSDLC), IAM engineering, and NIST/SOC 2/FedRAMP compliance alignment.
- **Agile Team Leadership & Governance:** Technical project management, developer orchestration, code-quality audits, and technical debt reduction.

Differentiators

- **Senior Architect Leadership:** Direct oversight by an experienced solution architect on every engagement, eliminating management bloat and ensuring technical integrity.
- **SDVOSB & Texas VetHUB Advantage:** Streamlined sole-source and set-aside procurement eligibility for state agencies, public universities, and prime contractors.
- **Rapid Team Scaling:** Ability to architect complex systems and immediately assemble/manage specialized developer teams to execute deliverables on time.

Company Data & NAICS Codes

- **Socioeconomic Status** (All In-Process): Service-Disabled Veteran-Owned Small Business (SDVOSB Eligible), Minority Business Enterprise (MBE) certification, Texas VetHUB
- **Primary NAICS Codes:** 541511 (Custom Computer Programming), 541512 (Computer Systems Design), 541519 (Other Computer Related Services), 518210 (Data Processing & Hosting), 541513 (Computer Facilities Management)
- **Product Service Codes (PSC):** DA01 (IT Application Development), D302 (IT Systems Development)
